OBJECTIVE

A dedicated Information Technology student seeking an internship opportunity to apply my knowledge in web development, programming, database management, networking, and IT technical support. Adaptable, detail-oriented, and eager to gain hands-on experience, strengthen my technical and problem-solving skills, and contribute to an organization's goals while developing my professional abilities.

PROJECTS

Room Reservation App Prototype PUPWESTO

UI/UX Design | Figma | Wireframing | Prototyping | Human-Computer Interaction

- **Designed a mobile application prototype using Figma to address room scheduling conflicts and classroom availability issues at the Polytechnic University of the Philippines.**
- **Developed interactive wireframes and high-fidelity prototypes featuring room availability, scheduling, and reservation functionality.**
- **Applied UI/UX design principles to create intuitive navigation, user-friendly interfaces, and accessible layouts.**
- **Collaborated with team members to identify user needs and translate requirements into practical interface designs.**

PhilHealth Membership Registration System

Academic Group Project | PHP, MySQL, HTML, CSS, CRUD Operations

- **Developed a web-based membership registration system using PHP, MySQL, HTML, and CSS to organize and manage member information.**
- **Implemented CRUD operations to support member registration, record retrieval, information updates, and record deletion.**
- **Designed a relational MySQL database to store and manage membership records.**
- **Applied database normalization and input validation principles to improve data organization and maintain record consistency.**

CERTIFICATES

CompTIA Network+ Certification **2025**

ActiveLearning, Inc. / CompTIA

- **Training and certification focused on essential networking concepts, including network connectivity, configuration, troubleshooting, and security fundamentals**

Web Development Training Certificate **2024**

Department of Information and Communications Technology (DICT)

- **Completed web development training covering the foundations of webpage structure, styling, and the creation of user-friendly web interfaces.**

EDUCATION

Bachelor of Science in Information Technology

Polytechnic University of the Philippines – Manila | Sta. Mesa, Manila | Graduation Expected: April 2027

STEM Strand

Polytechnic University of the Philippines – Manila | Sta. Mesa, Manila | September 2024

- **Graduated with High Honors**

SKILLS

Web & Design: HTML, CSS, JavaScript, Figma (UIIUX Design and prototyping), Video and Photo editing, Responsive Design

Networking: Network fundamentals, Switching, Routing, Wireless, Device initial configuration, Cisco Packet Tracer

Programming Languages: C, Java, Python,

Productivity Tools: Discord, Google Workspace, Microsoft Office Suite, MS Teams

Soft Skills: Effective communicator, Active listener, Time management, Resourcefulness, Adaptability, Positive work attitude

Languages: Filipino, English
